BEST TIME FOR A SAFARI:

The best time to visit Kruger and most wildlife parks is from May to September. This is Dry Season and animals congregate around waterholes and rivers. This is, in fact the low season of tourism.

- **Best time:** May to September. (All parks)
- **High Season:** October to March.
- **Low Season:** April to September. (Best wildlife viewing months)
- **Best Weather:** April – May and September – October.
- **Worst Weather:** June to August. (Cold in the morning and at night)

PACKING FOR A SAFARI:

Pack light, South African summers are hot and even winters in the national parks are relatively warm. Bring some warm clothes for chilly evenings, night drives and outings. Useful items to include.

- Camera
- Video Camera
- Credit Cards
- Mobile Phone
- Travel Bag
- Snacks
- Map
- Sun Screen
- Jacket

MALARIA & VACCINATIONS:

Malaria is a parasitic disease transmitted by female Anopheles mosquitos. It has plagued mankind for centuries and remains a risk today, particularly in parts of Africa, Asia and Latin America. Malaria is both preventable and

Curable, but if not diagnosed and treated early it can also be fatal. The information on this page is just a brief guide and should not be used as a replacement for consultation with your travel doctor. For more detailed information visit the Health department website of South Africa.
